Charleston, SC

SUMMARY

      IT infrastructure professional seeking to continually learn and challenge myself with new technologies, environments, and teams. Best suited for technical implementations and business communication with non-IT stakeholders. Analytics-oriented and thinker mindset.

EXPERIENCE

Nordic Global   **August 2024 – Present**
Network Engineer   *Charleston, SC*
- Routinely design and implement LAN, wireless and routing for new ambulatory and urgent care clinics.
- Engineered large hospital routing design, transition from micro segmentation to traditional Cisco design.
- Performed and troubleshot migration to SD-WAN for satellite sites. EIGRP and BGP routing with vManage.

Bosch   **August 2022 – August 2024**
IT Support Analyst   *Charleston, SC*
- Standardized, surveyed, and documented administration of a Cisco appliance environment with approximately 300 network nodes.
- Led refresh initiative to upgrade fiber infrastructure, wireless implementation, and network appliance lifecycle. Managed vendor relationship and purchase order process to meet installation milestones and financial budget.
- Administered manufacturing site's enterprise environment of 2,000 end users and 5,000 devices. Tier 2 system administration and Tier 3 network/infrastructure troubleshooting and implementation.
- Continuous communication and partnership with Director stakeholders on IT planning/milestones. Explaining technology in high-level terminology and risk vs. reward discussions to gather approval for budgets or projects.

Network Field Technician   **December 2018 –August 2022**
Independent Contracting   *Charleston, SC*
- Independently performed retail installation, troubleshooting, and upgrades on three large retail clients: Walmart, Food Lion, and CVS Pharmacy.
- Surveyed and installed POS and data cabling requirements for fast-service chains: McDonald's and Chick-fil-A.
- Configured CCTV, servers, and video system solutions for retail environments: Walmart and CVS Pharmacy.

EDUCATION

Charleston Southern University   **March 2025**
Bachelor of Technology in Cybersecurity   *Charleston, SC*

Trident Technical College   **December 2022**
Associate in Applied Science in Cybersecurity   *Charleston, SC*

CERTIFICATIONS
